No indoor dojo, train in the environment, under all weather conditions, daylight, night-time... become a 21st century NINJA!

Kuroshinobi= "dark ninja" or "dark spy".

Ryu= a martial tradition

Shinobi-do= "way of the ninja"

Kuroshinobi Ryu is a neo-ninjutsu martial arts style that is based off of the factual, historic ninja of Japan. Kuroshinobi Ryu bases its art off of the conceptual ninja of Japan. It is neither Iga nor Koga, but it is all ninjutsu. We use the older term of shinobi and shinobi-do; we translate -jutsu to mean, "a technique or a craft", and -do to mean "the way", such as the "way of the ninja or shinobi". We feel to use the term -do signifies our intent to learn more than mere techniques, but also to learn, experience, and practice the path of the ancient shinobi.

Kuroshinobi Ryu teaches from the 9 traditions:

Taijutsu/ Self Defense

Mystical/Spiritual

Weapons

Invisibility/Camouflage/Disguise

Survival Skills

Restorative Arts/Healing Arts

Poisons/Traps/Explosives

Strategy
